# LIFE Egyptian Vulture Project

*Final Conference*

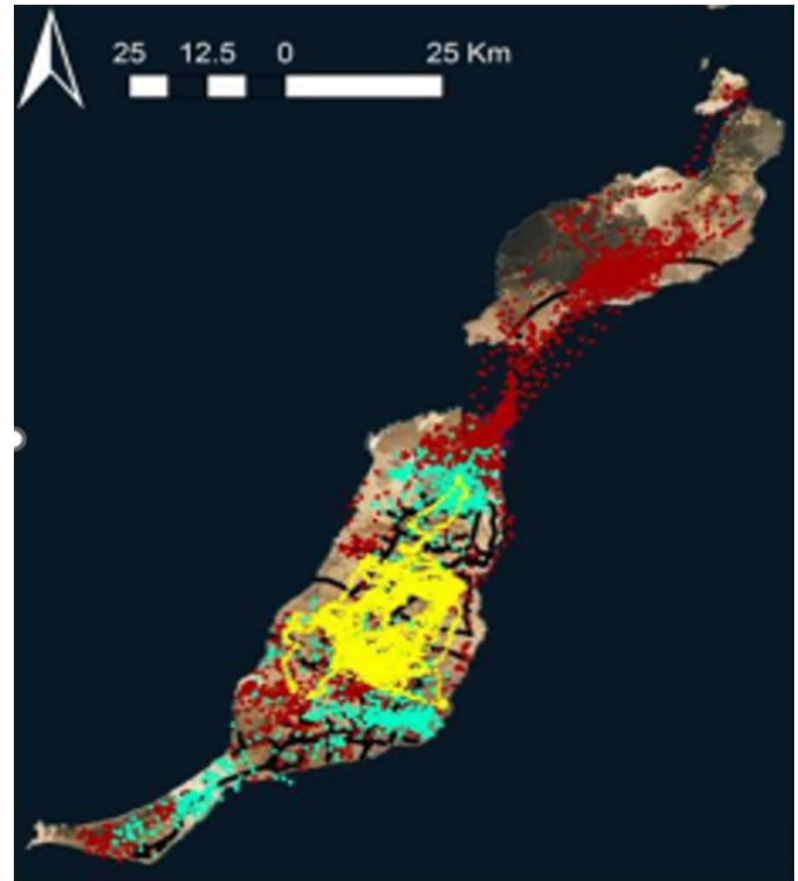

## Project data

- **PROJECT BUDGET = 5 M€**
  - **e-distribución = 505.196 € (10%)**
- **EXECUTION PERIOD:** 5 years (Oct. 2017 - Sept. 2022), extended until 2023.
- **PROJECT OBJECT:** Improve the level of conservation of the Egyptian Vulture population.
- **SCOPE e-distribución:** Reduce the risk of electrocution of the Egyptian Vulture on medium voltage electrical pylons.

# Location: Canary Islands (Spain)

*E-Distribución:* Modification of 222 pylons  
Actions executed in the 2018 - 2022 period

Year	Fuerteventura Nº Pylons	Lanzarote Nº Pylons	Total
2018	35	21	56
2019	33	1	34
2020	53	10	63
2021	56	9	65
2022	0	4	4
<b>Total</b>	<b>177</b>	<b>45</b>	<b>222</b>

# LIFE Egyptian Vulture Project

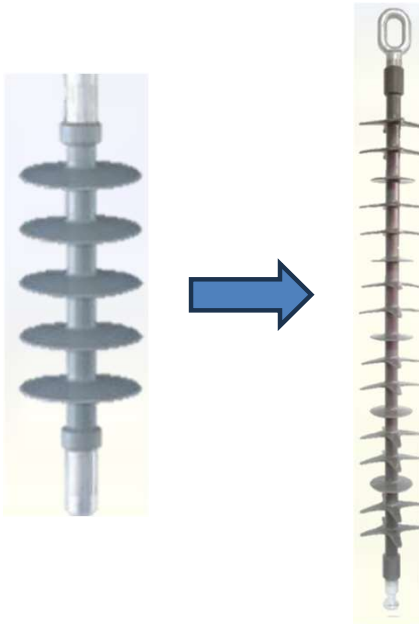

The actions  
of the  
Project  
have been  
executed by  
specialized  
personnel

## Type of actions

lining of elements that  
have electrical voltage

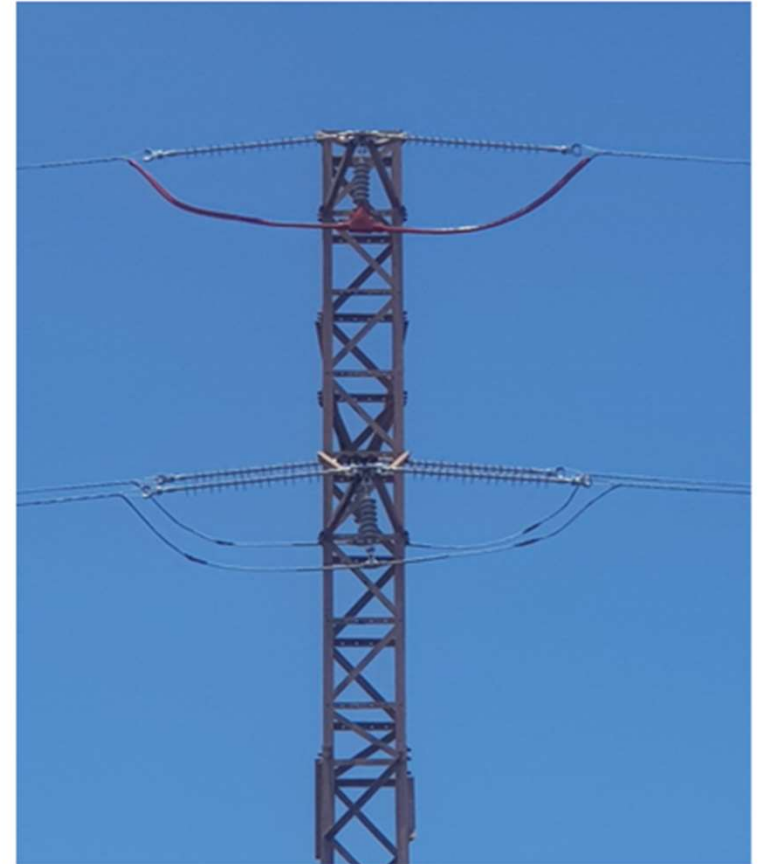

change the insulators  
for larger ones

Depending on  
the typology of  
the pylon, one  
of the actions  
or both can be  
done
